Subject: MCR Prioritisation Exercise - List for Review and Feedback (by 8th November)
Attachments: Release 2013 MCR Prioritisation Ranking.xls

Hello All

As announced at the recent HWG, we are commencing an exercise to prioritise the approved MCRs for preparation and planning for the 2013 Release.

In this regard, we enclose a list of MCRs for your review and ranking. It is important to note that it is not expected that all of the listed MCRs could be implemented in the next Market Design Update. Rather, we will collate the ranked responses and formulate a short-list for implementation in the next release.

The list for prioritisation comprises 8 MCRs which is the list of all currently approved MCRs. The list contains 7 Schema and 1 Non Schema MCRs which are applicable for RoI. Non-Schema MCRs for NI will be discussed at the CDA.

You are required to rank each of the 8 MCRs from 8 (highest) to 1 (lowest) in decreasing order of importance to your company. Please score MCRs which are of no importance or relevance for your company as 0.

Your responses should be completed and returned to HRDS no later than Thursday, 8th November.

If you have any comments or queries on this exercise, please feel free to contact us.

Regards

HRDS
