

Northern Ireland Retail Electricity Market Arrangements Change Request Form	
Change Request Details	
Originator's CR ID:	CRID170 - DR 1123
CR Originator:	NIE
CR Originator Name:	Joan-Edel Smith
CR Title:	TCC field Validation on 017
CR Priority:	High
CR Date:	07/06/2012
Change Request Description	
<p>This Discussion Request proposes that an additional validation rule be introduced on 017 market message which makes the TCC field mandatory when requesting Re-energisation of a prepayment meter. This is to ensure that the correct TCC is applied to the meter on re-energisation as advised by the Supplier.</p>	
Reason for proposed change benefits and / or implications of not making the change	
<p>To introduce an additional validation rule on 017 market message to make the Tariff Configuration Code (TCC) field mandatory when requesting Re-energisation of a prepayment meter. If the TCC is not provided when requesting Re-energisation of a prepayment meter a 117R will be sent to the Supplier with Reject Reason code: ITF - Invalid Tariff Configuration Code.</p>
