

303R Customer Read Rejection

303R Valid Codes

Reject Reason

IA – A customer reading has been received for a Maximum Demand Meter Point **or** a 210 message has been received for a given MPRN where the reading and read date are the same as a previously advised 210 message for the same MPRN

IMP – The MPRN does not exist or is not valid for this jurisdiction (Explanation expanded for Harmonisation v10.0)

IMT – The Meter Id does not exist at this MPRN according to data held by DSO

IRP – Register Type does not exist at Meter Point according to data held by DSO

IRS – Register Sequence does not exist at Meter Point according to data held by DSO

ITI – Timeslot does not exist at Meter Point according to data held by DSO

NRS – No register identification data (sequence number, timeslot or register type) has been provided

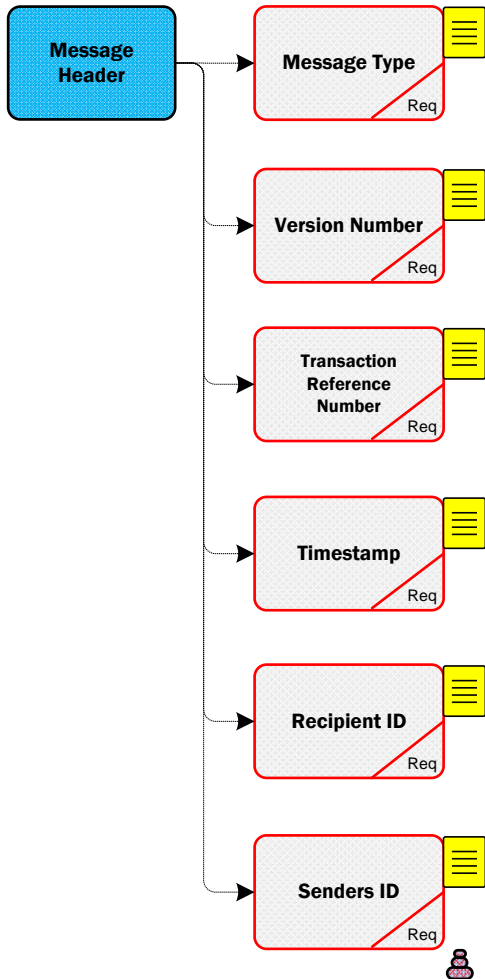

SNR – The Supplier providing the reading is not registered to the Meter Point

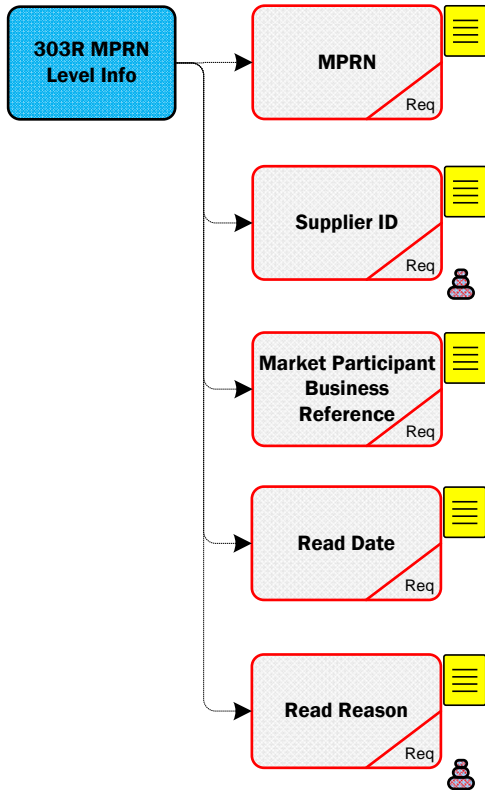

TIM – The Read Date has not passed the date validations specified for messages 010, 016 or 210

IID – The original readings provided contained invalid or incomplete data to allow Data Processor to process the readings

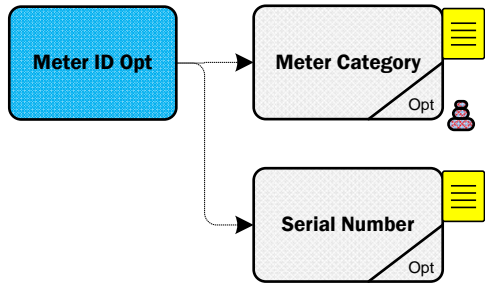

Meter ID:

Please Note: Both Data Items to be provided by Supplier where more than one Device exists on messages to Networks. Both data items are Mandatory on messages from Networks, except 303R where it is Mandatory if invalid meter or register data is sent by Supplier and 260 / 311 / 261 where Meter ID is sent if the meter problems refer to a specific meter.

Read Reason

01 - Scheduled

17 - Change of Profile

95 - Not for CoS

02 - Special Read, Chargeable

18 - Energisation

04 - Special Read to resolve dispute

21 - Start Reading (New Register)

09 - Special Read, non chargeable

22 - Closing Reading (Register removed)

10 - Ad-hoc, no chargeable check read

23 - Meter Works Single reading

11 - Start reading after meter re-programming

26 - Change of Supplier

13 - De-Energisation

27 - Change of Legal Entity

14 - Estimate

28 - Closing read before register re-number

16 - Closing read before meter re-programming

29 - Star read after register re-number
